

Please don't overturn the NJ DO NOT CALL List. Before the call list I was bugged repeatedly nearly everyday (on average 5 days a week including Sundays) by telemarketers. I would be fine with telemarketers if they had rules like NO CALLING ALLOWED ON WEEKENDS and no calls after 6pm weekdays. They are crying to the FCC now to allow them to call folks on the DO NOT CALL saying its their right to business, etc. etc. meanwhile when they do call folks they have ZERO respect for private residents. It is this lack of respect (especially calling on Saturday and Sunday mornings...I work hard during the week those two days are my only chance to sleep in a little) that makes me HATE telemarketers. I will NEVER purchase ANYTHING from ANYONE who doesn't respect my time and my privacy.
